

# Weekly eBlast

## CONSTRUCTION UPDATE DRONE FLYOVER VIDEO Honouliuli to Pouhala Stations

This new drone flyover video is a sneak peek of the rail stations and overhead guideway between Honouliuli (Ho'opili) to Pouhala (Waipahu Transit Center) Stations located within the first operating segment and where Trial Running is occurring.

Trial Running began on August 29, 2022, and is the final series of testing before the rail system is ready to be put into operation. During testing, trains will be operational and moving along the tracks from Kualaka'i (East Kapolei) Station to Hālawā (Aloha Stadium) Stations—24 hours a day, 7 days a week.

HART urges the public to follow safety precautions and, when driving near the rail guideway, look ahead not overhead. Do not watch the trains or photograph the trains while driving, keep your attention on the road. The "third rail" is LIVE and ENERGIZED—24 hours a day, 7 days a week. Therefore, the public should avoid contact with the rail tracks at all times.

For more information about the Honolulu Rail System, visit [HonoluluTransit.org](https://HonoluluTransit.org).

## Monday Traffic Update

HART and Frank V. Coluccio Construction Company (FVCCC) would like to notify area residents and businesses of the start of Downtown Utilities Relocation work on Halekauwila Street between South Street and Cooke Street.

Beginning **Monday, September 19, 2022**, crews will begin the first phase of investigative utility potholing work on Halekauwila Street. This activity will require various and intermittent lane closures, sidewalk closures and on-street parking restrictions from **Mondays through Saturdays, between 8:30 am and 3:30 pm.**

Driveways and business access will be maintained. However, please be aware there may be an increase in traffic and noise levels throughout the construction process.

For additional information and an illustrated area map, please view the construction notice.
