

Weekly eBlast

RAIL PROJECT UPDATE

The HART Hour on NewsRadio 830 KHVH

Executive Director and CEO Lori Kahikina, P.E., and Deputy Executive Director Rick Keene returned to the Rick Hamada show on **Friday, March 10, 2023**. Here are some of the highlights discussed:

- Utility relocation work is occurring on Dillingham Boulevard and the Downtown area.
- Businesses are open during rail construction.
- Look ahead to transferring over the first half of the system to the City's Department of Transportation Services (DTS) for the initial opening of rail service.

Listeners can call in at 808-521-8383 during the HART Hour and ask questions. Tune in every Friday morning for the HART Hour. The next show: March 17, 2023, at 7 am.

Monday Traffic Update

HART and Nan, Inc. would like to remind motorists, residents and area businesses of ongoing travel lane modifications on Kamehameha Highway at the Middle Street intersection through Dillingham Boulevard at the Kaaahi Street intersection.

Beginning the week of March 20, 2023 HART and its contractor, Nan, Inc., will be extending the work

areas on Dillingham Boulevard from Alakawa Street to Kaaahi Street. The current one-lane configuration will extend continuously from Middle Street to Kaaahi Street.

- Kamehameha Highway and Dillingham Boulevard will operate with one westbound and one eastbound travel lane, 24 hours a day, 7 days a week.
- Left turns are restricted for motorists traveling on Kamehameha Highway and Dillingham Boulevard, and from driveways.
- Intersecting streets along the corridor in the mauka and makai direction will be closed, as needed, during nighttime work hours from 7 pm to 5 am.
- Driveway access will be maintained along Kamehameha Highway and Dillingham Boulevard.
- Bus stop locations near designated work zones may be temporarily relocated.

Travel lanes may be shifted in various areas. Dedicated bus pullout lanes have been implemented to allow buses to service passengers, while allowing through-traffic to maintain travel. Please observe and obey traffic signage through construction zones.

Residents and businesses near work zones may experience elevated levels of noise during operating hours. Please anticipate and plan for delays and travel detours, observe all traffic signs and drive with caution.

For additional information and an illustrated detour map, please view the construction notice:

BUSINESSES ARE OPEN DURING RAIL CONSTRUCTION

Central Pacific Rebuilders

HART wants to remind everyone that businesses are open and to continue accessing businesses in the community during rail construction.

In this week's business spotlight, HART highlights **Central Pacific Rebuilders** in Kalihi, which has been supplying new and high-quality rebuilt starters and alternators for a variety of applications since 1999. They specialize in automotive, marine, heavy duty, industrial, and recreational applications, providing top-of-the-line products to customers.

Offering a range of specialized products, including high-output alternators and Deka batteries, covering

various needs such as commercial, marine, solar, automotive, ATV, and mobility/wheelchair applications.

With a full lifetime warranty on all automotive starters and alternators, Central Pacific Rebuilders provides customers with peace of mind that their investment is protected.
